

Email Forwarding

Last Updated Wednesday, 09 May 2007

To forward your CIS email you must forward you must log onto one of the CIS UNIX systems directly or via SSH.

At the shell prompt enter the following command:

```
echo "abc1234@rit.edu" > ~/.qmail
```

replace abc1234@rit.edu with destination address

The .qmail file must reside in your home directory.

If you decide you want to stop forwarding email

log in to one of the CIS UNIX systems and enter `rm ~/.qmail`
